POLAR FROST Pain Relieving Cold Gel

Polar Frost gel provides moderate long acting reduction (5-6°C) of the skin temperature, for 2-4 hours, without risks of counter reactions or frost-bites. It offers a possibility to use features and benefits of cold as long as needed. **Massage a thin layer** of Polar Frost Cold Gel into the painful area. Repeat application every three hours for 3-5 days, as needed. Polar Frost absorbs fast and works quickly.

Muscular disorders and injuries:

- Strains, sprains and ruptures • Stressed muscles and tension
- Chronic neck-, shoulder and low back pains and aches
- Work and occupation related muscular disorders
- Cramps and spasms • Bruises • Lumbago and ischias
