

# Gymna ShockMaster

## More than just Shockwave Therapy

### Did you know that with Shockwave Therapy

- *you are able to treat more than just chronic tendinopathy?*
- *you can remedy back and neck conditions?*
- *you can provide a solution for more patients in your practice?*
- *you can significantly improve the quality of life of your patients?*

**And that Gymna ShockMaster supports you in this?**

# New treatments, more patients and increased profitability

## New treatments

**5** out of ten  
women

you have definitely come across **patients with low back pain** in your practice. Studies have shown that low-back pain is one of the most commonly occurring types of local pain in young and middle-aged adults (1).

**Myofascial pain** is often the cause of low-back pain (2).

Recent studies have shown that this indication can be effectively treated with radial shockwave therapy. (3)

**4** out of ten  
men

suffer from  
**myofascial pain**
